## ■ Cold Storage Door Buying Checklist

Make your next door purchase stress-free and high-performing.

*Brought to you by Therm-I-Tec — Veteran-Owned. USA-Made. Built to Perform.*

### ■ Before You Buy: Define the Basics

- ☐ What temperature will this door need to withstand?
- ☐ What type of room or environment will it serve? (Freezer, cooler, ambient)
- ☐ How often will the door be opened per day?
- ☐ Will it need to operate manually or automatically?
- ☐ What are the dimensions of the opening?

### ■ Door Type & Operation

- ☐ Sliding Door (Manual or Electric)
- ☐ Swinging Door
- ☐ Overlap Freezer Door
- ☐ Electric Operation for automation compatibility
- ☐ Compliant with local codes and safety regulations

### ■ Performance Features

- ☐ High R-value insulation (check required R-rating)
- ☐ Quality sealing to prevent air leaks
- ☐ Corrosion-resistant materials (stainless steel, reinforced frame)
- ☐ Meets industry-specific requirements (USDA, pharmaceutical, etc.)
- ☐ Low-maintenance hardware & easy-to-service design

### ■ Manufacturer Checklist

- ☐ Made in the USA with fast lead times
- ☐ Warranty included
- ☐ Technical support and install guides available
- ☐ Access to parts store and wiring diagrams
- ☐ Trusted by your industry peers

### ■ Decision Time

- ☐ Have you reviewed Therm-I-Tec's approval drawings?
- ☐ Have you requested a custom quote?
- ☐ Do you need a site evaluation or expert recommendation?

### ■ Therm-I-Tec Cold Storage Solutions

Trusted for 50+ years by America's top cold chain facilities.
